

Emails	Outgoing	2015/04/10	8:41:42 AM	6:11:42 AM	To: warrensullivan Sully	<p>Been thinking of sending this to our members... Lots of frustration out there which I've had to reconcile myself. Good Idea or not you think? ...</p> <p>Friends and Colleagues -</p> <p>It is with a heavy heart I write this message, however, I feel in necessary that you hear my sentiments on Sunday's tragedy - the death of Mr. Donald Dunphy. We live in a period where opinion is ubiquitous, while facts seemingly take a back seat to what is titillating. This is however where we have a responsibility, and where we must take the time to reflect on why we decided to enter the world of Policing.</p> <p>It is very easy for us to become frustrated at what appears to be prolific ignorance prevailing in our society (something I have had to reconcile myself); but we didn't choose to become police officers because it was easy. We are police officers, and we are the civilian police staff, because we get the unparalleled opportunity to help people. For Mr Dunphy, we were simply too late - but that doesn't mean we stop forging ahead into hopelessness, anguish and despair with the view of creating betterment, safety and wellbeing for the citizens we serve.</p> <p>Our community is reeling from this terrible misfortune, and we must do what we are supposed to do in any community tragedy - we must show strength, understanding, compassion, leadership, and empathy. This is our responsibility; we need to take the opportunity to educate and empathize.</p> <p>We are the experts in our field, and can't expect everybody to simply "get it". While we cannot discuss confidential details of any police file or investigation, we can indeed articulate our expertise in a concise way that alleviates some of the confusion that exists even amongst our own friends and family:</p> <p>Protective Policing - is predicated on intelligence led investigations. Most will inherently view police work as something that is reactive, ie. Somebody is threatened and we respond accordingly. Intelligence based policing is proactive, and in the case of protective services,</p>
