Subject: Phone Message - Donna re: Make you aware of social media

This lady called this morning to caution you about social media in light of the shooting yesterday in Mt. Carmel/Mitchell's Brook yesterday. She is aware that a lady has been contacting you on your Twitter Account, [REDACTED], who she feels is not the nicest person. She advises she has been in court 4 times and feels that she could turn into a danger. She is aware she posted something like "I dare you to talk to my kid". She is aware of this lady because [REDACTED] has posted things on line about her. She says you should be care with social media as well with your postings. She just want to give you a heads up.

Colleen
