Hi Mike,

A Firearms Specialist caught something that I should have asked you in the first instance. Your C-414 mentions that the deceased's rifle "... was loaded but not fired during this incident."

Would it benefit your investigation to have this cartridge tested for function and classification? If so, please provide me with an exhibit number for it, and I'll add it to your C-414, and send you an Approval Notice for it. If not, no further action is required on your part.

Thank you for your help.

Mike
