	<p>Nolan heard that Megan didn't know her father had a gun. Other persons in the community have told Nolan that he does in fact have a gun.</p> <p>Nolan then told Cst NIPPARD about a black SUV that was parked on the road in front on her home. The vehicle was a new, black SUV, male occupant. Her son said it was a "Undercover cop". The vehicle was parked there for 5-7 minutes. Around 1:20 - 1:30 p.m. She thought it was just someone on their cell phone but didn't see the person on a phone. The vehicle was parked facing Donald Dunphy's residence. The male driver did not get out of the vehicle while there. Nolan did not hear any gunshots. She had family over for Easter dinner and there were grandchildren running around, the T.V was on, It was windy outside and given all this they never heard anything alarming.</p> <p>Nolan's son [REDACTED] called her at 2:47 p.m. telling her about several police cars heading down the bay with lights on. Time between the black SUV being in front of her residence and police cars arriving at the scene was approximately 1 1/2 hours. Nolan heard on VOICM that a "shooter was still at large and to lock your doors."</p> <p>Nolan's son [REDACTED] told me that a couple of days ago he was walking up the road and noticed a new sign attached to Donald Dunphy's residence. It read "Warning, do not enter."</p> <p>Nolan heard through hearsay that Donald Dunphy was sending threatening letters to the Government.</p> <p>Donald Dunphy had a working vehicle that he used on a regular basis.</p> <p>Donald Dunphy was a frequent user of "open line" a radio show that allowed callers to discuss current issues specifically surrounding provincial government. He had issues with Workers Compensation and the amount of compensation that he received in order to live.</p> <p>/jl</p>

	<p>Should evidence surface that causes concern, all possibilities will be entertained and explored at that time. The only evidence that might cause concern is the forensic evidence from the scene, which is still being analyzed. To develop theories while this evidence is still being analyzed is not investigatively sound.</p> <p>Based on what is known to this point, Mr RICHE's theory of an altercation (verbal or physical), the recovery of the rifle from behind the couch by DUNPHY, DUNPHY sitting in his chair, and then DUNPHY being shot by SMYTH makes no sense. One would have to accept that SMYTH allowed DUNPHY to move a couch during a heated argument, retrieve a rifle and sit down with the rifle in the chair in which he was shot and found. Trajectory evidence to this point clearly indicates DUNPHY was shot while seated in that chair. Even without considering the known physical evidence to the contrary, Sgt OSMOND finds the likelihood that an armed police officer, during an altercation, would allow an armed citizen to roam freely with a rifle, and sit down in a chair before discharging his weapon to defend himself to be highly unlikely. When considering this theory in conjunction with the physical evidence gathered thus far, there is no reason to think this occurred.</p> <p>/jl</p>

<p>Task ID 011 2015-08-07 10:15:00</p>	<p>Sgt OSMOND, Insp CAHILL and Cpl BURKE met with Judge RICHE. several issues were raised:</p> <ul style="list-style-type: none"> - RICHE feels it is vitally important to clarify with Maghan DUNPHY when she last saw her father's rifle. He has trouble figuring out why it would have been beside his chair on the day of his death. MCU's position is that the question has been asked and answered by Ms DUNPHY, and only Mr DUNPHY could answer why the gun was by the chair, which is impossible. Ms DUNPHY states the last saw the rifle when she attended her father's house to feed the cats while he was in hospital several months before the shooting. It was behind the couch in the living room. RICHE was told if he wanted further clarification, he should feel free to contact Erin BREEN or Ms DUNPHY. In the opinion of investigators, the question has been asked and answered....to seek further answers to the question is a leading process and might appear as though the police were looking for a specific answer rather the one that had already been offered. - RICHE wonders if someone called to foerwarn DUNPHY of pending police arrival. He was advised by Cpl BURKE that DUNPHY's cell phone records do not reflect this as possible, and he had no landline. - RICHE has concerns over reconciling the bullet trajectory as compared to SMYTH's account, Dr AVIS' explanation, and his theory that perhaps DUNPHY was in a different position than reported. He was advised that the forensic results / trajectory assessments are not completed and will likely address his concerns. If there are inconsistencies, they will be explored at that time. - RICHE stated he feels the position of the gun on the floor is not consistent with him having been shot in the manner described by SMYTH. OSMOND asked him why he felt that way and he said it simply doesn't look right. OSMOND pointed out to him that MCU members, although having investigated numerous crime scenes, cannot make such conclusions as they lack the expertise. OSMOND 	<p>Action: 138 K OSMOND</p>

	<p>suggested that kind of conclusion should be left to experts.</p> <ul style="list-style-type: none"> - RICHE states he feels that SMYTH 'slipped up' by calling the chair a couch and that concerns him in terms of his honesty. BURKE advised he has reviewed the statement and feels that SMYTH mis-spoke, which is not uncommon when providing a statement. It was agreed that SMYTH would be asked about this by Cpl BURKE. - RICHE feels the decision not to polygraph SMYTH was not the right choice. BURKE and CAHILL explained that the questions that could be asked are limited, as they have to be very specific, but most importantly SMYTH is not a suspect in an offense at this point. Should the forensics show differences from SMYTH's statement, or other evidence arise that causes concern, the issue would certainly be revisited. BURKE explained that he made inquiries on the usefulness of the polygraph, and was provided the above-noted guidance. - RICHE offered some thoughts about what might have happened, such as the alleged altercation between the two men. He also speculated that SMYTH may have been in the little hallway next to the living room when he shot DUNPHY. OSMOND has no idea on what evidence RICHE has arrived at these possibilities. OSMOND cautioned him about speculating before the forensic evidence had been received. There is no indication that anything RICHE is speculating actually occurred. <p>/jl</p>

RICHE was hoping there would have been more information regarding trajectories and location of where certain shots were fired. 	<p>particular bullet left more than one indicator of travel (damage to walls) that could be linked together to provide directional information.</p> <p>It was explained to Mr RICHE that investigators are hoping that perhaps the subsequent scene analysis that will be completed (after the lab results are back) might offer further information in that regard. RICHE was advised the lab results are expected in Mid-September.</p> <p>Sgt SAUNDERS also pointed out the 'void' in the garbage that was noted by investigators. While not definitive evidence, it could possibly be attributed to a long-ish item having been on the floor on the right (DUNPHY's right) of the chair in which he was sitting.</p> <p>Justice RICHE discussed the amount of shots fired by SMYTH and seemed to place great significance on the fact that the bullet that struck Mr DUNPHY in the side severely damaged his aorta (information he attributed to Dr AVIS). He seemed to feel that because it caused massive bleeding and would likely have been a fatal shot in and of itself, the other shots may not have been necessary. It was explained to him that 1) nobody currently in the room could definitively testify to which shot SMYTH discharged first, 2) although the shot to the aorta may have ultimately killed DUNPHY over time, nobody in the room could speak to how long death would have taken, or if the pending death would have been obvious, 3) the entire event would have taken just a few seconds and complex decisions are not often made in such a compressed time, 4) in a traumatic situation, police should revert to training (instinct) and SMYTH's training regimen will form part of the investigation.</p> <p>Justice RICHE expressed that SMYTH should have simply arrested DUNPHY, placed him in handcuffs and brought him before a Judge, thereby avoiding the eventual outcome. Sgt OSMOND told RICHE that, according to the information in the investigation thus far, SMYTH had no grounds to arrest DUNPHY as no criminal offense had been established. SMYTH arresting DUNPHY while simply trying to have the meaning of an electronic social media message clarified would have been an unlawful arrest and could have resulted in Cst SMYTH being charged.</p> <p>Sgt OSMOND left the meeting early due to a medical appointment.</p> <p>/jl</p>

Dr. AVIS said the hand position of the deceased does not mean that was his hand position before he was shot. Dr. AVIS added that it would be possible to move the body for a certain time post mortem. Cpl BURKE explained the reason for questions on this about whether the police officer involved moved the body in any way, also if there may have been any sort of a struggle or altercation. Dr. AVIS said that scene evidence indicated that DUNPHY was indeed in seated the the chair when he was shot due to trajectory and the fact there was brain matter on the back of the chair. He also advised that as part of his autopsy report he will speak to any other injuries besides the bullet wounds. Dr. AVIS mentioned the fact that the police officer entered the residence believing that there was no firearms present and then one was presented. 	<p>She said the only way that her father would threaten him is if he didn't know he was a cop. She was adamant that if the RNC officer says that he identified himself than he's lying because his father wouldn't want to risk himself with a cop.</p> <p>She said he was not suicidal and not depressed. He didn't take any other drugs other than some pain killers and weed. He doesn't drink. She doesn't believe the camera on the house was functioning. It was there to dissuade people who might try to rob him.</p> <p>She believes that the RNC went into the house and didn't identify himself as a police officer.</p> <p>She found out about what had happened when a friend of her called and told her about all the police cars around her fathers' place. <p>Task ID 019 2015-04-08 10:49:00</p>	<p>Cst NIPPARD was in Mount Carmel, NL to conduct interviews and called Nancy Linehan at this time to see if she was available to provide a statement today. She advised she was free and I could come by this morning.</p> <p>/jl</p>	<p>Action: 168 M NIPPARD</p>
<p>Task ID 019 2015-04-08 11:20:00</p>	<p>Cst NIPPARD began the audio recorded statement of Nancy Linehan. Statement taken while sitting with her at her residence in O'Donnell's, NL. The following was noted:</p> <p>She works as a paramedic for Don Gibbons Ambulance Service. She has done so for 7 years.</p> <p>On April 5th, 2015 she received the call in question at 2:31 p.m. The dispatch advised that a male was shot. En-route they were advised the male was deceased.</p> <p>Normally Mount Carmel has their own ambulance service that would take this call however they were already out on another call. It took her and Kevin Bishop about 35 minutes to get to the scene from St. Mary's, NL.</p> <p>When they arrived there were several RCMP police cars there as well as a black SUV in the driveway of the residence in behind the police scene tape.</p> <p>Members on scene allowed them to enter the residence after waiting for a short time.</p> <p>Once inside she recalled the victim sitting in a chair in the living room and he was facing perpendicular to the front window. She observed an obvious gunshot wound to the forehead and at first when she seen the firearm thought that the victim had done this to himself. She also noted blood trickling from the side of the head. The firearm was on the floor to the left of the victim. Nancy described how the victims arms were positioned and imitated this to me. Left hand was lower. (Similar to a hand position one would assume to hold a long barrel gun)</p> <p>Recalled the gun had a brown stalk and was a bolt action. She completed a standard 4 step process that is used in cases of obvious death. (Checked the carotid artery, pupils, breathing and heart)</p> <p>Victim was deceased and this was obvious to her.</p> <p>She recalled the house was not clean and that there was cat food all over the floor and there were many cats outside but none inside with them.</p> <p>She was only in the residence for 5 minutes at most.</p>	<p>Action: 169 M NIPPARD</p>

	<p>2:30 p.m. The dispatch advised that they had a possible gunshot victim. En-route they were advised the male was deceased. They continued to the scene as though it was still an emergency. When they arrived there were several RCMP police cars. Members on scene allowed them to enter the residence after waiting for a short time. He recalled the house was not clean and that there was cat food all over the floor and there were many cats outside but none inside with them. Once inside he recalled the victim sitting in a chair in the living room. He observed an obvious gunshot wound to the forehead. The firearm was on the floor to the left of the victim. It was up off the floor a few inches resting on the victim or the chair itself. Barrel towards the victim. Recalled the gun looked old. He did not know what type of gun it was. Nancy completed her checks and determined the victim was deceased. He did not touch the body in any manner nor anything inside the residence. They was only in the residence for 5 minutes at most. After they were finished Nancy seen the RNC officer and that he looked "shook up" and asked him if he wanted to be checked out. He did go to the ambulance and have his vitals checked by her. His blood pressure was high. He was checked a second time before he left the scene. The RNC plain clothes officer was wearing a leather jacket and had a holster on his side and he believed the gun was in the holster. He also wore a badge on his hip and had no visible bullet proof vest on. The only injury he recalled was that to the victims forehead. Megan Dunphy came to the scene while they were there. Nancy gave her a hug. No conversation had concerning the scene. Megan was still there when they left.</p> <p>/jl</p>

Bart's first thought was that this was a "suicide by cop" situation.</p> <p>Bart finds this weird after learning that Donald had financial things he was looking forward to in his life and seemed happy lately according to his daughter.</p> <p>Donald was not physically violent for Bart to know of. He was verbally abusive and had an issue with authority. Found this whole incident strange.</p> <p>/jl</p>

He looked at the tweet something like "two prick dead MHA's" he felt the threats were ambiguous but given his previous online history and his grievances toward Workers Comp and government, he determined to investigate further by way of an "intelligence file" to determine a Threat Assessment.</p> <p>On Saturday he was able to identify the individual as Don DUNPHY. He had no previous dealings with this individual and reviewed some of his existing tweets (There were in excess of 27,000). While there was aggressive language the only one that was concerning was the one he had been advised of the day before. He checked MRD and ICAN (ICAN had nothing and there were numerous Don DUNPHY's throughout the province) and was able to ultimately locate his address through Tom MOHONEY at Workers Comp. MAHONEY also indicated they had concern with the individual as well. On Sunday he determined to attend and assess Mr DUNPHY.</p> <p>Mid-Morning Sunday, he completed a full indices check through CPIC CFRO and there was nothing of concern. He then contacted Adrian COX at 11:22 hrs. and advise him he would be attending. He also asked COX to run a Pros check as well. There was little that concerned him. There was an uttering threats from several years ago involving a family member in which the charges were withdrawn. There were no lengthy firearms complaints or other indicators of firearms or violence. COX offered to attend with him but he felt given his low risk assessment that a uniformed member would likely hinder his ability to build rapport with DUNPHY and was not required.</p> <p>He eventually found the house at 1322 hrs. and noted that the house was derelict and noted a sign on the house (Which was not uncommon in the types of people he deals with). The sign said something about the house being in a state of poverty because of workers comp and something about no political figures welcomed. He noted numerous cats and he felt empathy towards him because of the conditions he lived in. He knocked on the window but there was no sign of anyone being there.</p> <p>He then went to the house next door to gather intel to determine what DUNPHY had been up to and whether they have had ongoing issues with him. The female identified herself as the sister-in-law and described a lengthy history she'd had with him over property disputes. She described him of being a recluse, being antagonistic, having a grudge against the world, no friends, no family. <p>Task ID 027 2015-04-07 14:10:00</p>	<p>Cpl HENSTRIDGE attended the office of Donna IVEY (Special Assistant Communications Director) who provided an audio recorded statement. She provided the following information in her statement:</p> <p>As part of her duties she monitors media including social media and also posts to the Government FB Page and the Premiers' page. On Good Friday, she was at home browsing through media and noted a series of tweets composed by "Donahue2DonDunphy" The tweets were in response to a tweet by Minister COLLINS but did not appear related to his initial tweet.</p> <p>There were 6 or 7 tweets the majority of which were not threatening in any way and simply dissatisfaction with Workers Comp. She was aware of Mr DUNPHY's posts as he had posted in the past expressing the same types of concerns.</p> <p>One of the 7 tweets did concern her as there was some mention of 'hurting' family members. She felt the "Hurt" may have be a physical threat and forwarded the message via email to Sgt. SMYTH and Cpl NOEL for their action.</p> <p>This was not a unique occurrence and it is not uncommon for staff to forward letters, tweets etc to Protective Services for assessment. Later that afternoon, or on Saturday, SMYTH called her for some context regarding Don DUNPHY. She explained that she didn't have a lot of information other than he was an injured worker who was disgruntled. She suggested that Joe call Workers Comp who might be able to provide more information.</p> <p>On Sunday, she was cooking Easter dinner and heard on the media that there had been a shooting in Mitchells Brook. She later received a call from Communications Director Heather McCLEAN who asked her to forward her initial email to McCLEAN. She then did some research and noted a Don DUNPHY in Mitchells Brook and was fairly certain it was related to the tip she had passed on to Sgt SMYTH.</p>	<p>Action: 214 M HENSTRIDGE</p>

TILLER was very accommodating and provided them a place to wait for SMYTH.</p> <p>He also assisted S/Sgt TILLER in contacting the SPCA as there was some issue with cats at the residence and he had a contact with the SPCA.</p> <p>When SMYTH arrived, he along with S/SGT TILLEY and SMYTH went into an office upstairs. He conducted a critical incident debriefing with SMYTH and encouraged him to avail of the Employee Assistance Program.</p> <p>SMYTH was shaking somewhat but was very eager to provide his account. ADAMS encouraged him to wait until he had calmed down and collected his thoughts. Although ADAMS discouraged SMYTH from telling even the RNC members what had happened, SMYTH was persistent and stated that:</p> <p>He was there on an investigation He had advised the RCMP prior to attending the scene. He was concerned for the man because of the conditions in which he was living. He noted a bat or stick near the man and paid some attention to it while he spoke to him. While Joe was writing on his file, DUNPHY became agitated. Dunphy pulled a gun out and Joey said "no no no no" He believes he may have shot 3 or 4 times. ADAMS believes he may have been with SMYTH for about an hour. He left and was assured that Warren SULLIVAN would provide him a ride home. He noted that he didn't write notes while he was with SMYTH as he wanted to ensure SMYTH understood that he was there in his capacity to provide support and a critical incident debriefing. He prepared notes after returning to the RNC building (Copy of these notes provided to Cst NIPPARD and added to the file) This task now recommended for conclusion. The rifle was not serial numbered. That the .40 caliber pistol was operational and functioned in a semi-automatic manner. The pistol fired the spent casings found on the DUNPHY scene. Clothes worn by DUNPHY showed characteristics consistent with gunshot damage. No firearm discharge residue pattern was observed. Member noted the list of exhibits that were analyzed, namely the firearm of Joe SMYTH, the rifle recovered from the DUNPHY residence and bullets / casing found at the scene and at the autopsy. S/Sgt TILLER immediately called that number but answering machine - closed for weekend - message left. RNC member then provided me with the contact person named Kristy [REDACTED] who could be reached by cell at [REDACTED]397. S/Sgt TILLER immediately called and spoke with Krissy and asked if assistance could be provided - she advised that it could but it will take a few days. This started another area of contention in the family because Donald sold the land which the family wanted kept in the Dunphy name.</p> <p>Among their fathers belongings was 3 guns. A .22 caliber rifle and double barrel shotgun as well as another rifle. Donald had the .22 caliber gun. Kevin did not believe that this gun could fire anymore as he dropped it many yearas ago.</p> <p>Kevin was shocked when he heard that Donald had a gun and had pointed it at the officer. He said that once he heard that the incident was done for him right there and he felt for the officer involved and asked how he was doing.</p> <p>Donald was jnever a gun person according to Kevin.</p> <p>Donald was never a person who would resort to physical violence or even be threatening.</p> <p>Tom Hearn is a friend of Donalds and has kept Kevin updated as to the condition of Donald's home and living environment. However ever since Megan moved out 6 years ago Donald has become very dirty, the house condition has decreased signifcantly and the number of cats he now has is very high. This was a gradual thing that happened over the years.</p> <p>Kevin mentioned that Donald smokes marihuana and he didn't know if this had an effect on his mental health or not.</p> <p>Donald was easily angered when he started talking about an issue that bothered him and he would get himself worked up but never violent.</p> <p>He knew Donald was an avid user of open line and social media in which to debate issues that he took with government agencies.</p> <p>/jl</p>

	<p>is a synopsis of this statement:</p> <p>On April 5th, 2015 at approximately 2-3 p.m. he received a message advising of an officer involved shooting. This came via a group messaging system that is in place to advise certain members when something of significance has taken place.</p> <p>Approximately 4:30 - 5:00 p.m. Warren Sullivan picked him up to go to Holyrood RCMP detachment to meet with Sgt.Smyth.</p> <p>They arrived there around 5:30 p.m. and met with Sgt.Smyth. He advised him of his rights in this situation.</p> <p>Harris did not make any notes in this instance given the role that he was in. He was not in the role of an investigator, but rather a union rep and general supporter.</p> <p>He did not ask Smyth any questions about the incident itself and admitted that it is hard to do this given his natural instinct as an investigator.</p> <p>Smyth wanted to speak about what had happened and re-iterated a short version of his story a few times.</p> <p>Harris recalled the basics of Smyth going to the area to investigate a possible threat to the Premier of NL. Smyth then met with the subjects brother and sister in law then before leaving met with the subject in his home.</p> <p>Smyth told him the subjects behaviour was "up and down" and he was agitated.</p> <p>Smyth was making notes when he seen the barrel of a gun come up and he reacted.</p> <p>Harris was asked if anything that Smyth said was alarming to him. He advised there was nothing alarming mentioned.</p> <p>Sgt.Smyth was told it would be best to wait before providing a statement to investigators in the interest of providing the best account possible. Best after 24-48 hours Harris advised.</p> <p>Warren and him gave Smyth a ride home. Harris was dropped off first then Warren drove Smyth home.</p> <p>Harris guessed that he knew Smyth for approximately 4-5 years. Described him as Intelligent and level headed.</p> <p>/jl</p>

Justice RICHE had a couple some concerns of where the gun came from on the day DUNPHY was shot. He said that he looked back at Meghan DUNPHY'S statement and noted that she was at her father's house a couple of weeks prior and saw a gun behind the couch. Justice RICHE then adds that Meghan was a few hours before the incident and did not see the gun and feels that she may have or should have saw the gun if it was where SMYTH said it was (on side of the chair). Justice RICHE also said that in SMYTH'S statement he says the word couch when referring to the firearm's location.</p> <p>Cpl BURKE was aware of the observations of Justice RICHE was referring and respected his views. Cpl BURKE did offer explanations still keeping in mind the concerns of Justice RICHE. Cpl BURKE was not saying that his version was 100% accurate but just at different way of providing answers to what Justice RICHE had highlighted and in line with the evidence presented to date.</p> <p>In the statement of Joe SMYTH he said that he saw the gun come from the right side of the chair. There appears to be a void in the garbage on the floor to the right of the chair that is consistent with the side of the rifle found at the scene. This chair is where Donald DUNPHY was found deceased and the gun would have been accessible from where DUNPHY was seated. There was not other evidence to suggested that the rifle was in another location other than MEGHAN seeing it behind the couch at least two weeks before.</p> <p>When SMYTH refers to the couch in his statement it appears to Cpl BURKE that he is talking about the chair because he is asking if the rifle came for the actual couch or was it on the floor. He says in his statement and re-enactment that he was unsure if the rifle was jammed in the cushions or in a holster on the side when DUNPHY was sitting or it the gun was actually on the floor, he does not question the location in the room only that the gun came from the right side where DUNPHY was sitting.</p> <p>Both Justice RICHE and Cpl BURKE agree that a firearm was presented by DUNPHY regardless of it's origin.</p>	<p>Action: 915 S BURKE</p>

Task ID 054 2015-08-06 08:20:00	Cpl BURKE received a phone call from Justice RICHE for an update on Lab results and he was notified that a date was identified as Sept 15, 2015. Justice RICHE raised a couple of issues for clarification: 1. Did Meghan DUNPHY see a firearm in her father's residence the day before the incident? Was it by the chair? Could she have seen it by the chair? 2. Was Donald DUNPHY tipped off that police were looking to speak with him? SUI (S.D. BURKE) CPL. /jl	Action: 919 S BURKE
Task ID 054 2015-08-06 10:20:00	Cpl BURKE reviewed the statement of Meghan DUNPHY provided to police on April 8, 2015. Cpl BURKE focused on portions of that statement that referred specifically to the gun. The reason for this statement was that DUNPHY contacted police and advised she had further information that she had not disclosed to police in her initial statement. The following are excerpts from that statement that speaks to the gun in Donald DUNPHY'S residence: DUNPHY: ...and the guys were there to talk to me like a few hours after I had found out about dad and that so you know as time's going by I'm just I guess more stuff is coming to me and stuff. But when they asked me about if there was any weapons in the house and I said no... Dunphy: ...well there was a gun in the house belong to my grandfather. When my grandfather died dad pretty much literally moved everything that was in his house, in my pop's house, over to our house cause everything is technically antique, or was antiques	Action: 920 S BURKE

	<p>in my dad's eyes. So you know like one of the officers even mentioned they seen this big oar around and like there's lots of old junk around is what I call it like it's, it's ready for the dump.</p> <p>Dunphy: But it's just really old and it was my pops and dad wanted to keep it. So there was a gun. I'm not familiar with guns. I can't tell you what it is. I can't tell you what it was. All I knows it was about this long and it was old and brown and rusty and junk like falling apart and I'm pretty sure there was a piece missing off of it.</p> <p>Dunphy: So anyways and that was there in the house and when my dad got sick in January, I'm saying January my father was in the hospital sometime between January and say the first of February I'm not exactly sure of the dates..</p> <p>Dunphy: And he was in there for a week. He went down by ambulance first time he got sent home and then when he went back they kept him in. And hmm, when he was in the hospital I would go down in the day time and feed the cats like I'm doing now same thing and I went down a few days and cleaned up the house like I took out all the garbage and cleaned the kitchen and stuff like that and the gun was behind the couch. When I moved the couch the gun was flat like say I didn't lift the couch there was no need to lift down the dads he wasn't particular about like you know what I mean.</p> <p>Dunphy: Like I do home so I wouldn't scratch the floor so I just probably even kicked out the couch and it was kinda stuck under the couch. So you know I looked at it and it, it, it wasn't even a big thing to me because I knew it was there in the house before so I just figured you know whatever it was just hugged behind the couch it wasn't taken out a long time there was dust and dirt and shit everywhere. So I just lifted it up and shoved it back down on the couch and just shoved the couch back in. And I did mention to dad about it but it was never it was just like yeah it was pops gun like the old thing that was there like if you, were you to the house?</p> <p>Dunphy: Like there's stuff poked literally everywhere.</p> <p>Dunphy: So this was probably you know he probably moved some stuff over the past years and that, he, that just got slung in there like chances are only for I mentioned it he probably would of had to turn the house upside down to look for that if he wanted it.</p>

It was there because it was my pop's and dad was too, had too big of a heart to throw it away he didn't you know, every, he kept dressers and you now there's I bet you there's 12 dressers in our house. So you know that was in the corner it couldn't be in there. Then there was the window and probably his little garbage bucket and his table with all his pills and shit on it. So you know the gun could not have been around him or it would have been in plain sight is what I'm trying to say.</p> <p>Dunphy: Is what he would of said, and in my head that's the scenario that's happened there. He told him to get out and he probably didn't go immediately. I still, I don't think I'll ever believe no matter what comes out of this that my father hauled a gun on a cop because you know his life was getting better. He was looking forward to turning 60 so that he was gonna get like another 600 dollars a month and like things like that like things now are say if this had the be five years ago you know dad was a little bit more unhappy and stuff, but my father was not unhappy right now. He was bitter towards certain things but like he did not want to die by no means.</p> <p>Cpl BURKE believes that it is clear from the statement of Meghan DUNPHY that the last place she saw the gun was behind the couch, Cpl BURKE is satisfied with that. 	<p>was nothing new to him and was aware of the contents of her statement. Justice RICHE then said that he has a theory of what happened in the residence when DUNPHY was shot. He feels there was a confrontation between Donald DUNPHY and Joe SMYTH (clarified as verbal) and DUNPHY proceeded to go behind the couch and retrieve his gun and tell SMYTH to get out of his house and that was when SMYTH shot him. Cpl BURKE does not feel this theory described by Justice RICHE is logical or in line with the known evidence of this case for the following:</p> <ol style="list-style-type: none"> 1. DUNPHY was found seated in a chair across the room from the couch and the scene, while trajectory has not yet been established, suggested that DUNPHY was shot while seated in the chair. Justice RICHE'S theory appears to suggest that DUNPHY retrieved his gun from behind the couch and then sat down in the chair and was then shot; 2. Unless DUNPHY was aware that police were looking for him, he would not have had time to get the gun before SMYTH'S arrival. Cpl BURKE does not have any information to suggest that DUNPHY was tipped off that police were in Mitchell's Brook looking for him; 3. While this may be difficult to prove, there is a void in the garbage on the floor that appears proportionate with the rifle found at the scene and where SMYTH said the gun came from. The couch appears as if it was not moved. The gun if on the DUNPHY'S right side may or may not have been visible and if SMYTH was standing near the fireplace towards the couch it is unlikely he would have seen the gun. (Scene photos reviewed) 4. Joe SMYTH is the only witness and provided his version of when happened at the DUNPHY residence that appears accurate when compared against the available evidence. <p>Cpl BURKE suggested a meeting with Justice RICHE, in person, same set up for Friday August 7, 2015 @ 10.</p> <p>SUI</p> <p>(S.D. Her father always had his glasses with him.</p> <p>After the scene was released to the family DUNPHY said she found her father's glasses on the table in unwearable condition, one of the arm pieces were cracked and the nose piece was broken off. She said it looked as if a book or something heavy had been thrown on them and flattened them out.</p> <p>DUNPHY goes on to explain that her father was planning on doing home renovations (roof and flooring) and that had plenty of groceries. Her father was making financial and travel plans for the future as well and looked forward to turning 60 years old. Her father cared for cats and went of of his way to take care of cats that were not even his.</p> <p>On Easter Sunday DUNPHY said she had lunch with her father (at the Woodstock) and he stopped to Shopper's Drug Mart and put air in his tire at some point. He then went home as routine to lay down on the couch and have a nap, he always slept on the couch. DUNPHY noted that her father changed out of his jeans and into lounging pants which is what he normally did.</p> <p>SUI</p> <p>(S.D. BURKE) CPL.</p> <p>/jl</p>

	<p>Tom was spoken with During neighbourhood checks on April 5th, 2015. We went over much of the information he provided me on that date to have same on the record.</p> <p>Hearn knew Donald Dunphy for 20 years and spoke to him last approximately 2-3 weeks ago.</p> <p>Donald Dunphy never mentioned anything about any ongoing investigation into himself.</p> <p>Hearn guessed that Dunphy had 45 cats on his property and that he did look after them very well.</p> <p>Donald Dunphy had 1 daughter, Megan. She moved out of her fathers home 5-6 years ago.</p> <p>Hearn advised he had 18 members of his family over to his house today for Easter dinner and that no one there heard any gun shots. They family members were there at 2:30 p.m. when this happened and left between 6:30 p.m. and 7:00 p.m.</p> <p>Hearn never knew for Dunphy having a gun.</p> <p>Hearn knew that Dunphy smoked weed and seen the plants in his residence about 4 months ago. He knew that Dunphy had a license to do same.</p> <p>Donald Dunphy did not seem like a violent person.</p> <p>Donald Dunphy was in the hospital last year and had an operation regarding his bowels. He was in the hospital for 3-4 days.</p> <p>Dunphy's living conditions have went down hill since his daughter Megan moved out. It started after his wife died but got worse after Megan.</p> <p>Dunphy did wear glasses for reading. He never wore them when he was going around outside the home.</p> <p>The glasses he believed were not prescription, rather just a pair of reading glasses from a store shelf.</p> <p>Hearn described the glasses as having tape on them in the middle, might have been brown in color. Dunphy only wore them at home for reading as far as Hearn knew.</p> <p>Dunphy's appearance hasn't changed. He has always had the same basic appearance as he did on April 5th,2015. No dramatic weight loss etc.</p> <p>Dunphy wouldn't go far from home. Went to get groceries, banking, lotto tickets. Normal things.</p> <p>/jl</p>

None of the documents appeared to have come out of the folder. On this date, Cpl FOOTE and Cpl HENSTRIDGE attended to the lounge area of the HQ barracks in an effort to film a demonstration to determine whether this final resting place is objectively reasonable. Cpl FOOTE video recorded me dropping the folder approximately 8 times on a coffee table which was roughly the same height as the table in the DUNPHY residence. Cpl BURKE reviewed several shots that contained an image of what if believed to be Mr. DUNPHY'S glasses. Cpl BURKE noted that the glasses with on the end table directly in front of Mr. DUNPHY. In Cpl BURKE's opinion it appeared that the glasses was placed there by Mr. DUNPHY as he took them off his head. They were positioned ear pieces laid flat on table with the curved part of the ear piece facing up. The lens were perpendicular to the table. Both ear pieces were opened beyond the width of the frame. Cpl BURKE would consider the glasses as in poor condition, they were taped with surgical tape in several areas including the left arm, bridge and lens but wearable as they appeared in the scene photographs.</p> <p>After reviewing the scene photos extensively Cpl BURKE replied to Erin BREEN with the following message:</p> <p>Ms. BREEN</p> <p>I again reviewed the scene photos and viewed a pair of glasses on the coffee table directly in front of Donald DUNPHY. I would describe the glasses as prescription eye glasses with a silver wire frame, the end of the ear pieces appear white in colour. I noted that the glasses were broken. The left arm was reattached with what appeared to be white surgical tape. Tape was also noted on the left lens near the bridge of the glasses, possibly to keep the lens in the frame. It appears to me that glasses were indeed broken and repaired at home.</p> <p>Please advise Meghan and with her consent, police wish to seize the glasses.. Cst. <p>Task ID 082 2015-04-15 13:30:00</p>	<p>Sgt. OSMOND and Cpl BURKE attended Simmonds Law Office and met with Erin BREEN. BREEN was concerned about 2 issues as follows:</p> <ol style="list-style-type: none"> 1. The interview of her client, Meghan DUNPHY on the night the shooting incident of her father. She said that members did not many questions and did not dig into the background of her father all police appeared to be concerned about was the mental health of her father. Cpl BURKE explained that this was an initial statement from DUNPHY and police were trying to establish facts, it was in no way meant to be an all encompassing statement about the background of Donald DUNPHY. BRREN said that her client didn't like how she was treated by Cpl. HENSTRIDGE. Cpl BURKE advised BREEN that he was also present for that statement and had no issue about the way it was handled by Cpl. HENSTRIDGE and that it was indeed an initial fact finding statement. Sgt. OSMOND, who reviewed the statement taken by Cpl. HENSTRIDGE in its entirety also was confused by where the issued surrounding this statement stemmed. Sgt. OSMOND raised the fact that 2. Donald DUNPHY'S eyeglasses. BREEN said Meghan found them in the house and the glasses appeared as if a book was dropped on them. BREEN was concerned that the police did not seize the glasses as they hold evidentiary value. Cpl BURKE agreed that anything in that room could have evidentiary value and the scene was processed for evidence by police and the glasses were not seized based on that logic. Cpl BURKE added there was nothing about the glasses that concerned police that processed the scene and Cpl BURKE added that he viewed the scene photographs and without any other information was not concerned that the glassed were not seized. Cpl BURKE admitted that the glasses in the photo were in a state of disrepair but wearable and appeared as if they were placed there by DUNPHY. Cpl BURKE said investigativley speaking that he was comfortable that the glasses at this point still was of limited value but was interested in obtained same from Meghan in case something came up in the future. The photos are not dated and are not signed. There is no reference of what the pictures are and where they were taken. From file knowledge Cpl BURKE can only assume the eye glasses belonged to Donald DUNPHY and were captured as they were found in his residence by his daughter, Meghan DUNPHY as discussed with both BREEN and DUNPHY. Cpl BURKEs' review of the photos as compared with scene photos revealed the following: - The glasses are in a different location on the coffee table (one arm now slightly off table) - The skull head is now near the glasses, it was on the floor in scene photos - There is a knife missing that was under the glasses (indicating the glasses were moved) - The glasses appear to at a different angle - The nose piece is not evident on the table in the scene photos There does not appear to be a vast difference in the photos of the glasses in the scene as compared to the photos obtained by DUNPHY, both show a pair of glasses in poor condition. The following is a synopsis of that statement:</p> <p>-The last time he saw Donald DUNPHY with his glasses on was Sunday April 5th, 2015, he was at their house at about 1pm. He had his glasses on looking at his phone. Said that every time he saw him with his glasses in they were on the tip of his nose. CORCORAN didn't notice any tape on the glasses but that would not have stood out because it was not uncommon for him to have tape on glasses but in wearable condition. Said DUNPHY used his glasses when he had to focus on something small.</p> <p>-Said DUNPHY was preparing for the future by preparing wood for next winter, getting ready to do home renovations and vehicle maintenance</p> <p>-Said DUNPHY was going to pay him back for all the things he had done for him when DUNPHY turned 60 and got a pay increase</p> <p>No follow up planned for information contained in this statement at this time</p> <p>CH</p> <p>(S.D. <p>Task ID 106 2015-06-11 20:39:00</p>	<p>Cpl BURKE received a written statement from Meghan DUNPHY Re: found bullet. The following is a cut and paste of that statement:</p> <p>Today June 11, 2015 I went down to Dad's house to feed the cats, after I put some food out on the doorstep I went in the house to check on things. While inside I realized that the TV in the living room was still plugged in. I have nearly everything else in the house unplugged as there is nothing being used down there anymore. I had left the TV plugged in and turned on to the music station for the cats up until about a week ago when I got the last few cats outside.</p> <p>The TV was plugged into a power bar in the corner of the living room between the mantle piece and the front window. There is a vacuum cleaner in the corner and a rocking chair partially pushed in the corner near a speaker. I crouched down and unplugged the TV from the power bar and turned to leave the living room and go to the kitchen. When I turned and stepped out of the corner I heard something roll across the floor as if I had kicked it. First thought I figured it was a screw, but when I looked down I seen something I didn't really recognize. Just some small metal thing with a black top which looked like rubber to me. I picked it up and looked at it closer and realized it was some sort of bullet. I then quickly laid it down on top of the Rubbermaid tub that is on the living room floor. I then googled bullets on my phone to make sure that it was in fact a bullet. I took some pictures of the bullet and called Erin.</p> <p>/jl</p>	<p>Action: 755 S BURKE</p>

	<p>E. The Investigation of Officer-involved Incidents involving Death or Serious Injury</p> <p>-Investigations into incidents involving police conduct that may have resulted in a person's death or serious injury are different from standard investigations. In this particular case, some of the issues raised would have been addressed by a comprehensive investigative guide or best practice for these types of matters.</p> <p>Conclusions</p> <p>-The mere fact that issues were identified should not be construed as compromising the entire investigation. The questioned remained whether the issues, alone or in combination, are such that the quality of the investigation was contaminated. The investigation was done well, following best practices and major case management principals. While some shortcomings were identified, when view in the context of the investigation as a whole, they do not taint the overall quality of the investigation and the reliability of the evidence obtained. The investigation was thorough and provided sufficient context to make a determination, based on evidence, as to whether the subject officer was lawfully placed and to assess whether the use of force was authorized in law. The investigation reflects an intention to be objective and fair and was reported in an organized, logical, professional and understandable manner.</p>
