Don't forget witness in the
window At Don Donphy's Home
On the Day He was shot by
Joe. There was no Scuffle
Between Don or Joe. The Gun
Don Got from the Room was
Still on table when Joe
Pulled His Gun out. Don was
About 6-8 ft from Joe that I
could see And Don looked
towards the window I know
He saw me And Joe was turning
His Head And I ran in the
wood's I was about 50 ft from

Dan's when I heard 4 shots first
And when Don went towards
the Room Joe unhooked the
strip of the gun And was talking
to someone on his cell Joe
checked the gun Don came
from the Room with and laid
her on the table Joe had black
gloves on Joe knows me
