I noted a living room across to the immediate right as I entered. Col. FOSTE guarding the entrance to L.R. to prevent cats entering.

I noted a bolt action rifle (appeared to be .22 cal) leaning against a blue tupperware container to the right center of the L.R. Directly behind the rifle, a male deceased was sitting in a chair with what appeared to be a bullet hole in left side of head near temple.

AS I stepped in further I noted another gaping wound (approx 3-cms in diameter) above nose in center of his head. His hands were positioned as if he were holding a rifle. The living room and entire house was in disarray with numerous cats walking in and out. T.V in living room didn't appear to be connected to
